All In The Nature

THE FIVE NATURAL ELEMENTS

Coverstone believes that the above 5 elements define them and all their tiles are made from these elements. These inspire us to connect with nature and bring natural charm to your space. Join us to bring a serene natural touch.

Theory of Finish/Size

Capturing the rhythm of light
and reflection.

We believe that the right finish can change the very dimension of a room. By pairing a high-definition glossy glaze with the versatile 600X1200mm size, we create surfaces that play with light and shadow. It is an exploration of geometry that offers both a stable foundation and an expansive, radiant atmosphere.
